

Forevermark cabinetry™

Forevermark
cabinetry™

OUR COMMITMENT TO QUALITY

EPA TSCA TITLE VI COMPLIANT

TSG is constantly striving to meet and surpass all requirements for high quality cabinetry. As such, Forevermark Cabinetry products meet the United States Environmental Protection Agency (EPA)'s current standards for compliance with TSCA Title VI. Labeling indicating compliance is on each box and product. EPA's TSCA Title VI, the Formaldehyde Standards for Composite Wood Products Act, establishes the world's most stringent formaldehyde emissions standards for composite wood products. For more information, please feel free to email tsg@tsgcabinets.com or visit www.epa.gov.

DURABILITY

Our cabinets have been independently tested and meet or surpass standards set by the American National Standards Institute (ANSI). Our cabinets comply with ANSI/KCMA A161.1 standard for kitchen cabinets.

Testing for these durability standards includes a battery of tests that simulate years of use, including structural, drawer, door operation, and finish tests. **These standards include:**

Shelves and Bottoms - After 7 days of loading at 15 pounds per square foot, cabinets and mounting systems must not deflect excessively or show any indication of a joint failing or separating.

Wall Mounted Cabinets - Base cabinets are wall hung and wall cabinets are mounted. They are loaded to 600 pounds and exhibit no signs of cabinet or mounting system breakdown.

Base Joints - To ensure front joints that won't open under stress during installation or in use, a load of 250 pounds or 200 pounds is placed to the interior of cabinet-front stiles for cabinets with drawer rails.

Drop Test - A three-pound steel ball is dropped from six inches above the surface to see if shelves, bottoms, and drawer bottoms can withstand the weight of cans and other objects being dropped on them. After the test, the Drawer must not have any visible signs of joint failures or separation and must function normally.

Weight Test - Drawers are loaded at 15 pounds per square foot and operated through 25,000 cycles to test their ability to operate with loading during normal use. The drawers must then continue to function without any malfunctions in the operating system or drawer assembly, and drawer bottoms must not be deflected to obstruct drawer operation.

Structural Strength - A three-pound weight is dropped eight inches against the drawer assembly to see how well it can withstand the force of closing the drawer in typical use. After ten drops, the drawer-front assembly must not show signs of structural damage or looseness that would make it difficult to operate.

Stress Test - Doors are opened and closed 25,000 times in full 90-degree swings. The door must be operable, the door-holding device must keep the door closed at the end of the test, the hinges must not be visibly damaged, and the connections between the cabinet and the door and the hinge must not be loose.

Load Test - The door is under 65 pounds of pressure. The weighted door is moved through ten cycles of 90 degrees open, 20 degrees open, and 90 degrees open again. The door and hinges must not exhibit any obvious signs of damage or looseness after being weighted for ten minutes.

Heat Test - For 24 hours, a cabinet door is kept in a hotbox with 70 percent relative humidity and 120 degrees Fahrenheit.

Cold Test - After spending an hour in a hotbox set at 120 degrees Fahrenheit and 70 percent relative humidity, a cabinet door is taken out and allowed to return to room temperature and humidity levels. Next, it is placed in a coldbox set at -5 degrees Fahrenheit for an additional hour.

Spill Test - The exterior exposed surfaces of doors, front frames, drawer fronts, and end panels are exposed to mustard for one hour and tomato ketchup, olive oil, orange, lemon, and grape juices, coffee, vinegar, and 100-proof alcohol for 24 hours.

Stain Test - Depending on the type of door, a cabinet door edge is exposed to a standard detergent formula for 4-24 hours.

*Applicable to certain lines only, contact us for more information.

GREENGUARD GOLD CERTIFIED

from UL Environment

Forevermark Cabinetry is proud to further demonstrate our commitment to the well-being of our customers by offering select lines with UL Environment's GREENGUARD GOLD certification.

The GREENGUARD Certification Program (formerly known as GREENGUARD Indoor Air Quality Certification) gives assurance that products designed for use in indoor spaces meet strict chemical emissions limits, which contribute to the creation of healthier interiors. GREENGUARD Gold Certification (formerly known as GREENGUARD Children & Schools Certification) offers stricter certification criteria, considers safety factors to account for sensitive individuals (such as children and the elderly), and ensures that a product is acceptable for use in environments such as schools and healthcare facilities. It is referenced by both The Collaborative for High Performance Schools (CHPS) and the Leadership in Energy and Environmental Design (LEED) Building Rating System.

What is UL Environment, and what is the GREENGUARD Certification Program?

UL is a global independent safety science company with more than a century of expertise innovating safety solutions from the public adoption of electricity to new breakthroughs in sustainability, renewable energy and nanotechnology. GREENGUARD Certification is part of UL Environment, a business unit of UL (Underwriters Laboratories). GREENGUARD Certification helps manufacturers create—and helps buyers identify—interior products and materials that have low chemical emissions, improving the quality of the air in which the products are used.

GREENGUARD Certification standards have established performance-based standards to define products and processes with low chemical and particle emissions for use indoors. The standards establish certification procedures including test methods, allowable emission levels, product sample collection and handling, testing type and frequency as well as program application processes, toxicity limits and acceptance.

GREENGUARD Certification strives to protect human health and quality of life by establishing standards and certification programs to reduce exposure to chemicals and to improve indoor air quality. The GREENGUARD standards are among the most stringent indoor air quality standards in the world, and they are based on available standards and guidelines from national and international public health agencies.

What does GREENGUARD certification do?

Volatile organic compounds (VOCs) are chemicals that are released into the air from everyday furnishings, building materials and products—items like office furniture, flooring, wall coverings and cleaners. Once airborne, VOCs can easily be inhaled by building occupants and trigger a number of health problems.

The GREENGUARD Certification mark communicates that representative samples of a product have undergone rigorous scientific testing to meet some of the world's most stringent chemical emissions requirements. This certification helps reduce indoor air pollution and the potential for airborne chemical exposure.

The GREENGUARD Certification standard addresses the needs of the commercial building industry, focusing on products like building materials, seating, and systems furniture. This standard screens for more than 10,000 chemicals and places stringent limits on over 360 VOCs, including formaldehyde. All UL Environment's GREENGUARD standards also include a maximum allowable TVOC level, or "cap" on the level of all VOCs combined, to account for a product's total emissions.

GREENGUARD GOLD CERTIFIED CONTINUED...

How can GREENGUARD Certification help your business?

Demand for low-emitting products has increased significantly during the past decade. The GREENGUARD Certification program gives you the opportunity to appeal to this growing market by demonstrating that our products contribute to the health and well-being of building occupants.

What else can GREENGUARD Certification be used for?

GREENGUARD Certification is recognized and referenced in numerous building programs, standards and specifications around the world. Products with GREENGUARD Certification or GREENGUARD Gold Certification can contribute to the achievement of points in established green building rating systems, satisfy code or ordinance criteria and meet indoor air quality specific RFP requirements.

The scientific rigor of the GREENGUARD Certification program, combined with more than a decade of educational marketing and outreach initiatives, has made UL Environment's GREENGUARD mark the most recognized eco-label among architects and designers (second only to the Leadership in Energy and Environmental Design (LEED) Rating System). In fact, more than 460 sustainable codes, standards, specifications, and procurements guidelines documents—such as LEED®, Collaborative for High Performance Schools (CHPS), and the International Green Construction Code (IgCC)—recognize, recommend, or require the use of GREENGUARD Certified products.

This standard is designed to define low-emitting materials suitable for environments where people, particularly children and sensitive adults, spend extended periods of time, in particular schools and healthcare facilities.

WATERBORNE UV FINISHES

Forevermark Cabinetry features the use of waterborne UV finishes furnished by Sherwin-Williams on certain door styles.* The benefits of waterborne UV finishes include superior scratch resistance, low VOCs, finishes that are formaldehyde-hazard free, and reduction in environmental impact.

Forevermark Cabinetry is proud to offer products manufactured using Sherwin-Williams coatings as part of our goal to offer high performance products designed and manufactured taking steps to reduce environmental impact and meet or exceed the most stringent regulatory requirements.

You can be sure that the solutions you're choosing satisfy the highest standards for performance, while meeting or exceeding regulatory requirements. Which means you'll never have to choose between the best coatings for the environment and the best coatings for delivering a quality look that lasts.

*Waterborne UV finish: SL, GW

*Waterborne UV finish by Sherwin-Williams®: AP, AN, TG

FOREST STEWARDSHIP COUNCIL® CERTIFIED

Forevermark Cabinetry is proud to offer select products with raw materials that are Forest Stewardship Council® (FSC) certified through its supplier. The FSC® is an independent, non-profit organization that protects forests for future generations, and is the only system supported by groups such as WWF, Sierra Club, Greenpeace, Natural Resources Defense Council, and National Wildlife Federation. The FSC® protects water quality, prohibits highly hazardous chemicals, restricts deforestation, protects customary rights of indigenous people and local communities, prevents loss of natural forest cover, protects high conservation value forests, and limits clearcuts to protect forest ecology.

By purchasing a FSC-certified product, customers can ensure that their product is coming from responsibly managed sources.

The mark of
responsible forestry

Eucalyptus Grandis is a consistent, premium hardwood material with the following benefits:

- Durability - used often in high-end applications
- Sustainable & Eco-friendly
- High level of dimensional stability
- Exceptionally versatile
- Superior grain consistency

LIMITED WARRANTY INFORMATION

The Shekia Group, LLC d/b/a TSG, LLC ("TSG") warrants its Forevermark Cabinetry products to be free of manufacturer defects that are avoidable, and unnatural defects in material and workmanship under normal use, for five (5) years from the date of purchase by the original consumer purchaser (except for cabinets with painted finishes, which are limited to a two (2) year warranty). This limited liability warranty applies to residential use only at the original site of installation only. This limited liability warranty is non-transferable.

This limited liability warranty does not cover or apply to any defect that is not caused by TSG. This warranty does not cover or apply to products that have been misused; mishandled; abused; improperly stored or installed; modified; or subject to excesses of moisture or extreme temperatures, abrasive or citrus cleaning products, neglect, transit damage, assembly, disassembly, intentional damage, accidents, negligence, on-site alterations, improper storage, defective installation or normal wear and tear. Any modification to the hardware structure or finish of the original consumer purchaser's cabinetry by anyone other than those specifically authorized by TSG to do so shall void this limited liability warranty. The product must be used exclusively for its intended purpose in order to be covered by this limited liability warranty. This limited liability warranty shall become void if the cabinets or any components or parts thereof are in any way modified, improperly installed or damaged prior to or during installation, or installed or used in other than normal residential applications.

This limited liability warranty does not include or cover the cost of installation, removal, subsequent damage or transportation of the allegedly defective product, regardless of whether work was performed by a contractor, a service company or the original consumer purchaser. This limited liability warranty does not apply to any products used in conjunction with the cabinetry, including but not limited to countertops, appliances or plumbing fixtures. Use of cabinetry or any components or parts thereof in any way contrary to any instructions furnished by TSG shall void this limited liability warranty.

TSG's obligation under this limited liability warranty shall be limited to the repair or replacement, at its sole discretion, of any cabinetry or any components or parts thereof that TSG deems proven defective under normal use and service within the warranty period. This limited liability warranty is limited to the repair or replacement of the allegedly defective cabinetry or components or parts thereof, and does not include or cover any other costs, including but not limited to any costs of service, labor, shipment, transportation, removal or installation related to the repair or replacement.

Forevermark Cabinetry cabinets are constructed from several pieces of solid wood and wood veneers on plywood. Differences in grain pattern and color should be expected. Wood characteristics that naturally occur, such as variations in color, grain, mineral streaks and knots, are not considered defects. Color variations and color softening in cabinets are a natural occurrence due to species, age, character of cabinets and exposure to UV light and sunlight. For these reasons, replacement cabinets may not match display samples and/or the existing cabinets in the original consumer purchaser's home. Such variations and changes are not considered defects. This limited liability warranty applies only to defects, and does not apply to the yellowing and aging of any wood product. Forevermark Cabinetry products are wood products, and extreme conditions (high/low humidity, temperature, etc.) will cause any wood product to respond adversely. Accordingly, this limited liability warranty does not apply to cabinetry exposed to extreme conditions. Please note that newly produced cabinets will never be the same color as aged cabinets. TSG reserves the right to inspect any alleged defects in the field to determine if the product should be repaired in the field or in the factory, or replaced, if at all.

Mitered door joints in particular are likely to react to conditions of their environment. Gaps that may develop in door joints due to conditions of their environment are not included or covered by this limited liability warranty. This limited liability warranty does not cover or apply to hairline cracks of cabinetry; hairline cracks are unavoidable in wood cabinets given the nature of the material. Every species and grade of solid wood behaves in such a way as to eventually result in hairline cracks. Painted finishes react differently than stained finish with normal wood movement, and climatic conditions may result in breaks in finish, recesses and joint and panel lines. These conditions are considered a normal occurrence and are not included or covered by this limited liability warranty. Cabinet doors that are warped must be allowed to hang through one seasonal heating cycle (i.e., through a full summer) before replacement will be considered by TSG under this limited liability warranty. Doors that are warped in either direction not exceeding one-quarter inch (1/4") do not exceed normal material expectation and are not included or covered by this limited liability warranty.

LIMITED WARRANTY INFORMATION (CONT.)

TSG periodically makes changes to its product line and specifications. If a warranty claim is presented for a discontinued or unavailable cabinet or component or part thereof, TSG will replace the cabinet or component or part thereof under warranty with a new cabinet or component or part thereof of the same style or with a similar or comparable style currently offered by TSG. Some replacement cabinets and components and parts thereof are subject to availability, and may differ from those originally supplied. TSG is not responsible for replacement product that may not exactly match installed product, and is not obligated to inform original consumer purchasers of the discontinuance of or changes to product lines and specifications or to make similar changes in all products previously manufactured. Material changes are not a valid reason for an original consumer purchaser to refuse replacement under this limited liability warranty.

Warranty claims cannot be made directly to TSG by the original consumer purchaser. To submit a warranty claim, the original consumer purchaser must contact the dealer or distributor from whom the Forevermark Cabinetry products were purchased and report the nature of the alleged defect. The dealer or distributor will obtain the information necessary to make a claim decision, and forward such information in writing to TSG for TSG's consideration of the claim. If the dealer or distributor is no longer functioning as a business entity, please submit your claim in writing, with proof of purchase, to:

TSG / Forevermark Cabinetry, 1130 King Georges Post Road, Edison, NJ 08837

If a manufacturing defect occurs within this limited liability warranty's terms and conditions and TSG determines to replace the defective cabinet or component or part thereof, TSG will ship the replacement cabinet or component or part thereof to the original consumer purchaser via ground shipper or freight carrier, at TSG's sole discretion.

Please do not send the allegedly defective cabinet or component or part thereof to TSG, unless and until expressly requested to do so by our claims department. Pictures of cabinets or components or parts thereof may be requested by TSG. Making a fraudulent claim may be a crime, and violators may be prosecuted.

This limited liability warranty and its enforcement, and any and all claims or disputes arising out of, relating to or in connection with this limited liability warranty or the making, performance or interpretation of this limited liability warranty, shall be (1) governed by and construed exclusively in accordance with the laws of the State of New Jersey, without regard to the conflicts of law or choice of law principles of the State of New Jersey or any other jurisdiction (including but not limited to U.S. federal law) that would require the application of the law of any other jurisdiction, and (2) brought only in the United States District Court for the District of New Jersey or the New Jersey Superior Court, Middlesex County.

THIS WRITING IS THE COMPLETE AND EXCLUSIVE REMEDY FOR ANY ORIGINAL CONSUMER PURCHASER FOR BREACH OF WARRANTY. THE STATEMENT OF THE EXPRESS WARRANTIES PROVIDED HEREIN IS IN LIEU OF ANY AND ALL OTHER EXPRESS AND/OR STATUTORY WARRANTIES, TO THE EXTENT PROVIDED BY LAW. IN NO EVENT SHALL TSG BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES TO ANY ORIGINAL CONSUMER PURCHASER OR A THIRD PARTY, INCLUDING BUT NOT LIMITED TO DAMAGES ARISING FROM PERSONAL INJURY, LOST PROFITS, LOSS OF BUSINESS OPPORTUNITIES, LOSS OF PROPERTY, ECONOMIC LOSS, STATUTORY OR EXEMPLARY DAMAGES, WHETHER FROM NEGLIGENCE, WARRANTY, STRICT LIABILITY OR OTHERWISE. ANY AND ALL IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, COURSE OF DEALING AND USAGE OF TRADE, AND ANY AND ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, ARE EXCLUDED AND DISCLAIMED, EXCEPTING ONLY THOSE EXPRESS WARRANTIES SPECIFICALLY SET FORTH IN THIS LIMITED LIABILITY WARRANTY. IN NO EVENT SHALL TSG BE LIABLE FOR ANY INDIRECT DAMAGES RESULTING FROM INSTALLATION, USE OR FAILURE OF ITS PRODUCTS. THIS LIMITED LIABILITY WARRANTY IS TSG'S SOLE WARRANTY, AND NO DEALER, DISTRIBUTOR OR AGENT POSSESSES ANY AUTHORITY WHATSOEVER TO MODIFY OR ENLARGE THIS WARRANTY IN ANY WAY.

WALL & BASE FILLERS AND BOXED COLUMNS

Boxed columns can be used as floating shelves

- **BF3** = Base filler 3\"w x 34-1/2\"H x 3/4\"d
- **BF6** = Base filler 6\"w x 34-1/2\"H x 3/4\"d
- **WF3XX** = Wall filler 3\"w x 30\"h, 36\"h, 42\"h, 84\"h, 90\"h, 96\"h x 3/4\"d
- **WF6XX** = Wall filler 6\"w x 30\"h, 36\", 42\"h x 3/4\"d
- **A3BF** = Decorative base filler. Fluted with beveled square. 3\"w x 34-1/2\"h x 3/4\"d
- **A6BF** = Decorative base filler. Fluted with beveled square. 6\"w x 34-1/2\"h x 3/4\"
- **AxxWF** = Decorative wall filler. Fluted with beveled square. 3\"w x 30\"h, 36\"h, 42\"h x 3/4\"d
- **CLB334-1/2** = Column box base. 3\"w x 34-1/2\"h x 24\" d
- **CLWxxx** = Column wall. 3\"w x 30\"h x 36\"h x 42\"h, x 15\"d (Boxed columns can be used as floating shelves)
- **CLW396** = Column tall. 3\"w x 96\"h x 27\"d (*CLW396 is trimmable to custom height)
- Fillers are 3/4\" thick and finished on all sides and edges.
